

**The 2<sup>nd</sup> International Conference on Faith, Spirituality and Social Change  
Winchester, April 14<sup>th</sup> 2007**

**A Paper:**

**SOUL MIND BODY MEDICINE  
A COMPLETE SOUL HEALING SYSTEM USING THE POWER OF SOUL**

**\* Hudoba P, MD, FRCS, Zhi Gang Sha, MD (China)**

The authors of this paper reveal a model for healing which has existed on Earth for millennia. The essence is to combine the human intellect with Soul Power.

*Mind over matter* is powerful, but it is not enough. Humanity cannot resolve its current deadlocks by using only the intellect. In fact, it is the human intellect that is largely responsible for bringing us to the brink of total annihilation.

To overcome humanity's locked-in problems, a higher level of consciousness must be introduced.

Dr. Hudoba and Dr. Sha discuss the power of soul as a guiding principle in resolving our current dilemmas. They propose a non-denominational and non-religious alternative to other approaches, namely the use of the power of divine love and divine light. This power is one that has been recognized by almost all cultures and all religions.

*Soul over matter* is the ultimate power and solution. The soul has the power to heal, the power to remove blockages, the power to transform life and the power to uplift the consciousness of humanity. The power of soul can be used in conjunction with our intellectual capacities, while greatly enhancing them by empowering humanity with new wisdom and knowledge, and a direct connection to divine consciousness.

Soul Power can be learned by anyone. The authors offer practical techniques utilizing Soul Power that are simple, powerful and effective. Positive results can be achieved quickly.

The authors support their presentation with examples of their clinical research using Soul Power in the treatment of human illnesses. They will offer an interactive workshop during this conference to demonstrate Soul Power techniques.
