According to Quantum Physics, soul sickness is the root cause of death and all sickness. Soul sickness is caused by the harmful information inside our vibrational field. Soul healing is to transform the harmful information inside oneself. In the past two decades, soul healing has helped heal and prolong the lives of hundreds of thousands of people and provided hope to many hopeless cases. Soul healing techniques are simple and easy to practice. It can supplement other healing modalities. Achieving longevity and well-being through soul healing is worth attentions from more people.

Objectives

What skills or knowledge will attendees gain as a result of your session? Please list 3 to 5 learning objectives.

Please note to make each Objective a concise statement of what expect the audience to take away from your presentation. For example "By the end of this presentations attendees will have learned/understand/be able to... etc."

1. By the end of this presentation, attendees will have learned, from quantum physics point of view, what is soul and why soul sickness is the root cause of death and all sickness.
2. By the end of this presentation, attendees will have learned and experienced different soul healing techniques for healing oneself and others.
3. By the end of this presentation, attendees will receive a soul healing and have first hand experience about soul healing.
4. By the end of this presentation, attendees will have learned the case studies and research about the effectiveness of soul healing.
5. By the end of this presentation, attendees will have learned how to use soul healing to supplement medicines and other healing modalities for healing, longevity, and wellbeing.
