Salzburg, Austria, 17th – 20th July 2007**

A Paper:

**SOUL MIND BODY MEDICINE
A COMPLETE SOUL HEALING SYSTEM USING THE POWER OF SOUL**

*** Hudoba P, MD, FRCS, Zhi Gang Sha, MD (China)**

The authors of this paper reveal a model for healing which has existed on Earth for millennia. The essence is to combine the human intellect with Soul Power.

Mind over matter is powerful, but it is not enough. Humanity cannot resolve its current deadlocks by using only the intellect. In fact, it is the human intellect that is largely responsible for bringing us to the brink of total annihilation. To overcome humanity's locked-in problems, a higher level of consciousness must be introduced.

Dr. Hudoba and Dr. Sha discuss the power of soul as a guiding principle in resolving our current dilemmas. They propose a non-denominational and non-religious alternative to other approaches, namely the use of the power of divine love and divine light. This power is one that has been recognized by almost all cultures and all religions.

Soul over matter is the ultimate power and solution. The soul has the power to heal, the power to remove blockages, the power to transform life and the power to uplift the consciousness of humanity. The power of soul can be used in conjunction with our intellectual capacities, while greatly enhancing them by empowering humanity with new wisdom and knowledge, and a direct connection to divine consciousness.

Soul Power can be learned by anyone. The authors offer practical techniques utilizing Soul Power that are simple, powerful and effective. Positive results can be achieved quickly.

The authors support their presentation with examples of their clinical research using Soul Power in the treatment of human illnesses

Theme: Healing of humanity

Level: Advanced

Preferred format: Oral Presentation 15 minutes

Biographies:

Zhi Gang Sha is a universal healer, teacher and servant. An M.D. (China) and doctor of traditional Chinese medicine (China, Canada), Sha authored the international bestseller *Power Healing*. Named Qigong Master of the Year in 2002, he has been featured on PBS as one of the most powerful healers of our time. His new book, *Soul Mind Body Medicine*, was published in May 2006 and became a New York Times bestseller.

Peter Hudoba MD, FRCS is an ordained minister and a lifelong spiritual practitioner.

A former Assistant Professor of Neurosurgery, Hudoba is now in private practice in spine management. He has devoted thirty years to research activity in neurosurgery, neurology and, currently, the applications of spirituality in medicine. He teaches Soul Mind Body Medicine at Britannia Community Center, Vancouver, BC, Canada and is Chairman of the Board of Sha Research Foundation, California.
