This research case describes a powerful experience. In the midst of a very stressful day at work, the subject called a Master Teacher to request a blessing, and received instant transformation from stress to calm.

This in-depth story describes a subject's experience in a research study. To address grief and childhood trauma, the subject received blessings and traced the Da Ai Calligraphy Card within the Tao Calligraphy Healing Field with Master Sha. That night marked the end of the daily night terrors. The subject committed to be become a Tao Calligraphy Practitioner.

This video introduces the Tao Calligraphy Healing Field book, online sessions Tao Calligraphy Healing Field in Toronto and San Francisco, and the Sha Research Foundation with examples of ongoing studies.
